Happy New Year to you all.

It is great to be back at school. Your children are looking well and ready for learning. They are making new students welcome, getting to know their teachers and doing what the teachers ask, quickly and quietly.

The pool is ready for learning to swim. It is probably one of the most important things we learn because one day it may save your life.

I look forward to meeting lots of you at Cornwallis on 16th February. We have room on the bus for you.

Keep checking for further information from the Etap School App. Ask Cecilia if you need help to do this.

Glendene School Policy - Please see below:

Staying home and exclusion periods

To stop infection from spreading, we expect students and staff to stay at home when they are ill and/or symptomatic. The recommended period of time that someone should stay home depends on the illness. Students must stay home for at least 48 hours if they are ill (e.g. vomiting, diarrhoea, bad coughing). The HealthEd **infectious diseases table** provides recommended exclusion periods for a number of common childhood illnesses. We encourage people to seek advice from their own health providers, and to contact **Healthline** for advice if needed.

We follow guidance from HealthEd and the Ministry of Health for how long students, staff, and workers should stay away from the school if they have a more **serious illness/infection**. If someone at our school shows symptoms of a serious infection/illness, they are separated from others while waiting to be taken home.

With the exception of tetanus, students, staff, or workers with illnesses that have an available vaccine may be required to stay home under a health order issued by the Medical Officer of Health. Anyone who has potentially been exposed to the infection/illness and has not been immunised should also stay away from the school.
